

The Bluelab logo is positioned in the top left corner of the page. It features a stylized white 'B' inside a blue circle, followed by the word 'Bluelab' in a bold, white, sans-serif font. The background of the top half of the page is a photograph of a greenhouse filled with rows of plants in white hanging pots and trays on the floor.

Bluelab Multimedia pH Meter

Measure more, faster. Reinforced spear tip measures pH directly in soil, substrate and solution

Durable and reliable pH measurement

- Know your pH: fast, accurate pH measurements in the root zone so you can ensure optimal nutrient uptake
- Designed for growers: portable handheld design and reinforced spear-tip probe

No more guesswork

Bluelab meters reduce labor costs and crop loss while improving crop quality.

Amanda Goldsmith, Grower Assistant at Kawahara Nurseries | California, USA

Measure pH in multiple substrates

Accurately measure direct from the root zone in a wide range of substrates including soil, coco coir, stone wool and solution.

Easy to use

Fast measurement with backlit LCD display. Includes low battery indicator and auto-off function.

Two-point calibration

Simple two-point calibration process with 30-day calibration timer to ensure ongoing accuracy with every reading.

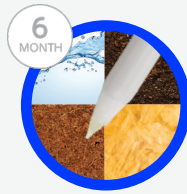

Reinforced spear-tip probe

Replaceable Leap pH Probe with a reinforced spear tip and 6.6 foot / 2 meter cable so you can measure in hard-to-reach locations.

Choose Bluelab and enjoy peace of mind

The Bluelab Multimedia pH Meter is built for growers and comes with a 5-year limited written warranty.

Replaceable double-junction Leap pH Probe that comes with a 6-month limited written warranty.

Use Bluelab KCl Storage Solution to keep your pH probe hydrated.

Compare our meters

Get acquainted with the Bluelab range by comparing the Multimedia pH Meter with our Soil pH Pen and Combo Meter Plus

	Bluelab Multimedia pH Meter	Bluelab Soil pH Pen	Bluelab Combo Meter Plus
Measurement range	0.0 - 14.0 pH	0.0 - 14.0 pH 0 - 50°C / 32 - 122°F	0.0 - 14.0 pH, 0.0 - 9.9 EC (0 - 99 CF), 0 - 4950 ppm (ppm 500), 0 - 6930 ppm (ppm 700), 0 - 50°C / 32 - 122°F
Parameters measured	pH	pH & temperature	pH, conductivity, temperature
