

Bluelab Soil pH Pen

A hardy handheld solution for measuring soil pH and temperature on the go

Measure soil pH and temperature

Know your pH: accurately measure pH levels in the root zone from the palm of your hand. No need for slurries — making soil pH testing quick and easy

Know your temperature: automatic temperature compensation (ATC) so you can rely on getting accurate readings every single time

Brilliant piece of equipment

Brilliant piece of equipment as you would expect from Bluelab. Don't hesitate if you need to know the pH of your soil. You'll struggle to find something better to do the job.

Soil or solution

Measure soil pH and temperature directly in the root zone of your plants soil and media. The Soil pH Pen can be used in nutrient solutions as well.

Waterproof, not just water-resistant

With its fully waterproof casing, the Soil pH Pen will float when it lands in any solution.

Integrated storage cap and dibber

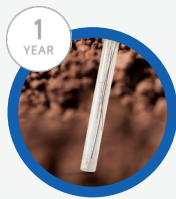

Simply make a hole in your media with the attached soil dibber and insert the probe to get consistent pH and temperature measurements.

Simple 2-point calibration

Simple two-point calibration with fresh pH 7 and pH 4 solutions to ensure ongoing accuracy with every reading.

Choose Bluelab and enjoy peace of mind

The Bluelab Soil pH Pen is built for growers and comes with a 1-year limited written warranty.

Remember to keep your cap on to keep your pH probe accurate and protected.

The Bluelab KCl Storage Solution should be used to ensure your pH probe is kept in ideal conditions during storage.

Compare our meters

Get acquainted with the Bluelab range by comparing the Soil pH Pen with our Multimedia pH Meter and Combo Meter with Leap pH Probe.

	Bluelab Soil pH Pen	Bluelab Multimedia pH Meter	Bluelab Combo Meter with Leap pH Probe
Measurement range	0.0 - 14.0 pH 0 - 50°C (32 - 122°F)	0.0 - 14.0 pH	0.0 - 14.0 pH, 0.0 - 9.9 EC (0 - 99 CF), 0 - 4950 ppm (ppm 500/TDS), 0 - 6930 ppm (ppm 700), 0 - 50°C (32 - 122°F)
Parameters measured	pH and temperature	pH	pH, conductivity, temperature
Detachable pH probe		✓	✓
Measure direct in soil/substrate and solution	✓ pre-hole with dibber required	✓	✓ Leap pH Probe only
Power source	1x AAA replaceable alkaline battery (included)	2x AAA replaceable alkaline batteries (included)	2x AAA replaceable alkaline batteries (included)
Limited warranty period	1-Year	Multimedia pH Meter: 5-Year Leap pH Probe: 6-months	Combo Meter: 5-Year Leap pH Probe: 6-months

Expand your grower's toolkit:

Try the Bluelab Truncheon for a conductivity (EC) meter that's just as useful as it's tough and comes with a 5-year limited warranty

Try the Bluelab Pulse Meter to enable you to accurately measure EC, moisture and temperature with a single click

Boost the longevity of your probes with our Bluelab Probe Care Kits
